PROJECTS

Kazpax

E-Commerce Shoe Cart

Technologies Used:

- **Frontend:** React.js, Redux, Tailwind CSS
- **Backend:** Express.js, MongoDB, Razorpay
- **Project Overview:** Evolved a comprehensive e-commerce platform, achieving a **35% increase** in user retention and a **45% reduction** in admin processing time.

User Side:

- **Secure Authentication:** Upgraded registration/login, improving data privacy and reducing login issues by **20%**.
- **Advanced Search & Filter:** Boosted product findability by **50%**, enhancing user satisfaction by **15%**.
- **Shopping Cart System:** Streamlined interactions, leading to a **25% decrease** in cart abandonment rates.
- **Profile Management:** Enabled users to manage personal info and view order history, resulting in a **30% increase** in repeat purchases.

Admin Side:

- **Secure Admin Login:** Simplified login process, cutting unauthorized access attempts by **50%**.
- **Product Management:** Improved catalog management, decreasing update time by **40%**.
- **User Management Tools:** Emphasized support response times by **35%**.
- **Comprehensive Dashboard:** Offered insights that led to a **20% increase** in sales.

Key Achievements:

- **State Management:** Implemented React.js and Redux, achieving a **30% reduction** in load times.
- **Responsive UI Design:** Utilized Tailwind CSS to enhance user engagement by **25%**.

Backend Details:

- Progressed RESTful APIs with **Express.js** for data interaction and utilized **MongoDB** for efficient storage.
- Integrated **Razorpay** for seamless payment processing.

MINI PROJECTS

Task Manager

Task Manager With Redux

- Launched a task manager using Redux Toolkit, achieving a **98% user satisfaction rate** through smooth state management and a clean interface.
- Deployed on Vercel with **99.9% uptime**, ensuring scalability to accommodate a **50% increase** in user load.
- Conducted usability testing, resulting in a **20% improvement** in user satisfaction.

Features:

- **User-friendly interface:** Facilitated efficient task management and responsive design.
- **Enhanced task completion:** Improved user task completion rates by **30%**.

EXPERIENCE

MERN Stack Trainee

Bridgeon Solutions

- Generated scalable web applications, enhancing performance and engagement by 20%.
- Optimized MongoDB schemas and integrated RESTful APIs, improving data flow efficiency by 25%.
- Created responsive UIs with React.js and Tailwind CSS, increasing user retention by 30%.
- Implemented server-side logic with Node.js and Express.js, reducing server response times by 40%.
- Conducted code reviews, boosting team productivity by 15% and decreasing production bugs by 50%.

SKILLS

LANGUAGES& FRAMEWORK

- HTML
- CSS
- JavaScript
- React js
- Redux Toolkit
- Node.js
- Express.js
- MongoDB
- Mongoose

Tools & Technologies:

- Git -GitHub
- Axios
- Tailwind CSS
- Bootstrap
- Payment Integration
- JWT
- REST API
- Multer
- Postman
- Nodemailer

Soft Skills

- Team Collaboration
- Project Coordination
- Communication
- Leadership

EDUCATION

Bachelor of Commerce

IGNOU UNIVERSITY

- Gained knowledge in project management, business strategy, and technology integration.
- Acquired a solid foundation in data analysis and digital tools applicable to IT and tech environments.

06/2020 – 07/2023
New Delhi, India

Plus Two In Computer Commerce

Emjay VHSS Villiappalli

- Specialized in Computer Commerce with a focus on IT applications and business technology.
- Completed coursework in Computer Programming, Business Studies, and Information Systems.
- Developed foundational skills in computer applications and understanding of digital business processes.

06/2018 – 03/2020
Vadakara, India
